Dear Mr. Grosser:

I am speaking for the whole Fort Jackson community when I speak of the Spiderman presentation that took place here at Fort Jackson Schools on April 12, 2002. We all really enjoyed JP Menese's message informing the school children about the importance of child abuse prevention.

I have enclosed an article that was published in the Fort Jackson Leader and I have also enclosed a diskette of pictures that several teachers/counselors took of this presentation.

On behalf of the Family Advocacy Program and the Fort Jackson community I would like to express my gratitude with such a wonderful presentation.

Thanks again.
